

Gemology Training Programs

The Gemology Training Programs provide comprehensive education in gemstone science, identification, grading, appraisal, jewelry materials, laboratory techniques, and professional gemological practice. The curriculum is designed to develop technical expertise and industry-relevant skills for careers in gemology, jewelry evaluation, gemstone trading, appraisal services, laboratory analysis, and the global jewelry market. Programs are available through Online, In-person, and Blended learning formats.

Introduction to Gemology

Course Title	Delivery	Duration (Hours)	Prerequisite
Introduction to Gemology	Online	36	Interest in Gemology, Jewelry, and Precious Stones
Introduction to Gemology	In-person	36	Interest in Gemology, Jewelry, and Precious Stones
Introduction to Gemology	Blended	36	Interest in Gemology, Jewelry, and Precious Stones

Gemstone Identification and Classification

Course Title	Delivery	Duration (Hours)	Prerequisite
Gemstone Identification and Classification	Online	50	Introduction to Gemology
Gemstone Identification and Classification	In-person	50	Introduction to Gemology
Gemstone Identification and Classification	Blended	50	Introduction to Gemology

Gemstone Grading and Appraisal

Course Title	Delivery	Duration (Hours)	Prerequisite
Gemstone Grading and Appraisal	Online	45	Gemstone Identification and Classification
Gemstone Grading and Appraisal	In-person	45	Gemstone Identification and Classification
Gemstone Grading and Appraisal	Blended	45	Gemstone Identification and Classification

Jewelry Materials and Technology

Course Title	Delivery	Duration (Hours)	Prerequisite
Jewelry Materials and Technology	Online	40	Introduction to Gemology
Jewelry Materials and Technology	In-person	40	Introduction to Gemology
Jewelry Materials and Technology	Blended	40	Introduction to Gemology

Advanced Gemology Laboratory Techniques

Course Title	Delivery	Duration (Hours)	Prerequisite
Advanced Gemology Laboratory Techniques	Online	60	Gemstone Grading and Appraisal + Jewelry Materials and Technology
Advanced Gemology Laboratory Techniques	In-person	60	Gemstone Grading and Appraisal + Jewelry Materials and Technology
Advanced Gemology Laboratory Techniques	Blended	60	Gemstone Grading and Appraisal + Jewelry Materials and Technology

Diamond Science and Grading

Course Title	Delivery	Duration (Hours)	Prerequisite
Diamond Science and Grading	Online	50	Gemstone Identification and Classification
Diamond Science and Grading	In-person	50	Gemstone Identification and Classification
Diamond Science and Grading	Blended	50	Gemstone Identification and Classification

Colored Gemstones and Treatments

Course Title	Delivery	Duration (Hours)	Prerequisite
Colored Gemstones and Treatments	Online	50	Gemstone Identification and Classification
Colored Gemstones and Treatments	In-person	50	Gemstone Identification and Classification
Colored Gemstones and Treatments	Blended	50	Gemstone Identification and Classification

Gemstone Synthesis and Imitations

Course Title	Delivery	Duration (Hours)	Prerequisite
Gemstone Synthesis and Imitations	Online	45	Colored Gemstones and Treatments
Gemstone Synthesis and Imitations	In-person	45	Colored Gemstones and Treatments
Gemstone Synthesis and Imitations	Blended	45	Colored Gemstones and Treatments

Gemology and the Global Jewelry Market

Course Title	Delivery	Duration (Hours)	Prerequisite
Gemology and the Global Jewelry Market	Online	36	Gemstone Grading and Appraisal
Gemology and the Global Jewelry Market	In-person	36	Gemstone Grading and Appraisal
Gemology and the Global Jewelry Market	Blended	36	Gemstone Grading and Appraisal

Ethics and Professional Practices in Gemology

Course Title	Delivery	Duration (Hours)	Prerequisite
Ethics and Professional Practices in Gemology	Online	30	Introduction to Gemology
Ethics and Professional Practices in Gemology	In-person	30	Introduction to Gemology
Ethics and Professional Practices in Gemology	Blended	30	Introduction to Gemology

Gemological Instrumentation and Spectroscopy

Course Title	Delivery	Duration (Hours)	Prerequisite
Gemological Instrumentation and Spectroscopy	Online	45	Gemstone Identification and Classification
Gemological Instrumentation and Spectroscopy	In-person	45	Gemstone Identification and Classification
Gemological Instrumentation and Spectroscopy	Blended	45	Gemstone Identification and Classification

Gemstone Documentation, Certification, and Reporting

Course Title	Delivery	Duration (Hours)	Prerequisite
Gemstone Documentation, Certification, and Reporting	Online	36	Gemstone Grading and Appraisal
Gemstone Documentation, Certification, and Reporting	In-person	36	Gemstone Grading and Appraisal
Gemstone Documentation, Certification, and Reporting	Blended	36	Gemstone Grading and Appraisal

Comprehensive Gemology Professional Program

Course Title	Delivery	Duration (Hours)	Prerequisite
Comprehensive Gemology Professional Program	Online	320	Introduction to Gemology + Interest in Gemstone Identification, Grading, Jewelry Technology, and Professional Gemological Practice
Comprehensive Gemology Professional Program	In-person	320	Introduction to Gemology + Interest in Gemstone Identification, Grading, Jewelry Technology, and Professional Gemological Practice
Comprehensive Gemology Professional Program	Blended	320	Introduction to Gemology + Interest in Gemstone Identification, Grading, Jewelry Technology, and Professional Gemological Practice
